

# Doin' the Vampire Cough

When you have to cough,  
or you have to sneeze,

Make like a Vampire,  
if you please.

Imagine your cloak  
is in your arm,

Pull it up to your face;  
and do no harm.

If you forget and  
cough in your hand,

Wash with soap and water  
as soon as you can.

**Coughing or sneezing into your elbow  
will help stop the spread of flu and cold germs.**

**It's the cool thing to do.**
